

## Tech Zone Demonstrations

Tech Zone, Exhibition Hall, Level 00

10.10-10.20	<b>Omron TM CoBot</b> Demonstration of Omron's TM series collaborative robot for automated applications such as picking, packing, and screwdriving.
10.25-10.40	<b>Senseye PdM Application</b> An overview Senseye's cloud-based Predictive Maintenance software and the efficiency improvements that manufacturers have achieved.
11.00-11.10	<b>Mitsubishi Electric MELFA Mate Collaborative Robot</b> Demonstration of the MELFA Mate Collaborative Robot with user-friendly programmable functions.
11.15-11.30	<b>Reprotec Group – Innovative Flooring Solutions: More than what you see on the surface</b> An overview of Reprotec's innovative approach to flooring solutions.
11.40-11.50	<b>Unipres (UK) Virtual Reality Overhead Crane Training by Animmersion</b> Demonstration of training tool developed by Animmersion for overhead crane operation.
11.55-12.05	<b>Evolution MRO Vending Solution</b> Demonstration of intelligent line side vending technology and associated efficiencies.
12.15-12.25	<b>Flowstore Pick-2-light</b> Pick-to-light demonstration and its impact on process efficiency.
13.00-13.10	<b>Vic Young Eve – Electric Vehicle Evolution</b> Demonstration of Eve, Vic Young's fully electric powered vehicle for wheelchair accessibility – based on the Nissan e-NV200 Combi.
13.20-13.30	<b>Omron TM CoBot</b> Demonstration of Omron's TM series collaborative robot for automated applications such as picking, packing, and screwdriving.
13.50-14.00	<b>Mitsubishi Electric MELFA Mate Collaborative Robot</b> Demonstration of the MELFA Mate Collaborative Robot with user-friendly programmable functions.
14.05-14.15	<b>Unipres (UK) Virtual Reality Overhead Crane Training by Animmersion</b> Demonstration of training tool developed by Animmersion for overhead crane operation.
14.25-14.35	<b>Evolution MRO Vending Solution</b> Demonstration of intelligent line side vending technology and associated efficiencies.
14.40-14.50	<b>Flowstore Pick-2-light</b> Pick-to-light demonstration and its impact on process efficiency.
