Ecoguard Solvent-Free Epoxy Coating

Nominal Thickness
340 microns

PRODUCT DESCRIPTION

FeRFA Type 3

Ecoguard is a solvent-free two-pack epoxy floor coating, specially developed for industrial and commercial applications. It is applied in thick protective layers, providing a hard wearing coating and excellent resistance to chemicals, solvents and oils. Furthermore, it provides a higher abrasion resistance to foot and vehicle traffic.

TYPICAL APPLICATIONS

As a waterproof, tough, chemical resistant floor coating, the Ecoguard is suitable for:

- Manufacturing
- Warehouses
- Storage areas
- Garages/workshops
- Service corridors
- Plant rooms

KEY BENEFITS

- Fully sealed surface
- Low odour
- Good chemical resistance
- Good abrasion resistance
- High gloss finish
- Ease of cleaning

SUSTAINABILITY

The product contains over 40% post-consumer recycled contents, reducing its impact on the environment.

PACKAGING

Ecoguard is available in a 6.3kg, two-part composite pack. This provides 33% more coverage than the standard 5kg pack.
