

Supply Chain
North East

#SupplyChainNE

Keeping all your eggs in one basket is
RISKY BUSINESS

supplychainnortheast.co.uk

Supply Chain North East works with businesses who want to diversify, broaden their customer base and unlock new market opportunities.

Working with individual business leaders and their teams to undertake an opportunity review, our advisors will identify and build on your core competencies, understand improvement needs and identify suitable opportunities in new and existing markets.

Delivering an opportunity review, Supply Chain North East will also connect you with market specialists to help you make the most of new technology, to drive productivity and innovation in new products and services.

Supply Chain North East will work with over 800 businesses between 2018 and 2021 and is designed to support businesses in the following sectors:

- Advanced manufacturing
- Subsea, offshore and energy technologies
- Automotive and transport
- Health and life sciences
- Digital, tech and creative
- Process, chemical and pharmaceutical

Supply Chain North East is a partnership project from the North East Growth Hub and is delivered by partners across the region: RTC North, Generator, North East Automotive Alliance and the North East Process Innovation Cluster.

The North East Growth Hub is our tailored package of support to help businesses in the North East LEP area to grow. It's made up of a number of programmes and services including Growth Hub online and the Connector service. You can find out more at northeastgrowthhub.co.uk

GENERATOR

Generator Established over 25 years ago, Generator is one of the UK's leading business support agencies operating within the creative digital, and tech sectors. Our talented and diverse team adopts a proactive, agile, and flexible approach drawing from our unrivalled networks to take businesses from Garage to Global.

North East Automotive Alliance The North East Automotive Alliance (NEAA) is established to support the economic sustainable growth and competitiveness of the automotive sector in the North East of England. The NEAA provides a single unified voice to key stakeholder groups and promotes the true value created by the region's automotive industry.

RTC North RTC North has over 30 years' experience in helping businesses to innovate, compete and grow. RTC North has grown steadily into its current position as a trusted and long-established business support organisation regionally, nationally and internationally.

NEPIC The North East Process Innovation Cluster (NEPIC) works with chemical-processing and supply chain companies to help them become successful and sustainable organisations in a business environment that enables them to grow. Through its established network, NEPIC provides business growth support to companies small and large via networking, events, mentoring, best practice, promotion and signposting.
