- Drinks and Networking Reception

Sunderland is a city with strong ambition.

**We're at the forefront
of the UK and Europe's
automotive industry,
driving forward growth
on a world stage.**

Businesses across the city
are renowned for their
productivity, resilience and
agility - securing investment,
developing world-leading
innovation, and creating
and sustaining key
employment opportunities.

Welcome

to the North East Automotive Expo 2025

Paul Butler,
CEO, NEAA

It is my pleasure to warmly welcome you to the tenth North East Automotive Expo, here in the heart of the region's automotive landscape – Sunderland.

On behalf of the NEAA and our valued partners and sponsors, thank you for choosing to exhibit, attend, and engage with us today.

The Expo has become a landmark event in the UK automotive calendar – bringing together businesses across the supply chain to share insights, forge new connections, and strengthen existing partnerships. It remains a powerful platform for showcasing the capabilities, talent, and innovation that define our region and continue to drive the North East forwards.

A Platform for Progress

This year, we're proud to present a packed and topical agenda, placing a spotlight on:

- The Advanced Manufacturing Sector Plan
- The Local Growth Plan
- Future technologies
- Diversity, equality, and inclusion in the workplace

We're also delighted to welcome back the Skills Lounge, sponsored by Education Partnership North East (EPNE). This dedicated space offers valuable insight into the region's skills and training landscape – covering everything from apprenticeships and workforce upskilling to Skills Bootcamps and the North East Local Skills Improvement Plan and Fund (NELSIP and NELSIF).

Inspiring the Next Generation

Following the success of 2024, we're once again joined by local primary schools taking part in a live VEX Robotics showcase. These talented students are here to demonstrate their STEM skills, interact with exhibitors, and gain exposure to the many exciting careers our sector can offer.

We're proud to support initiatives like this through the NEAA Annual Awards and school donation programme – building stronger links between education and industry and sparking passion for engineering and technology in young minds.

We also expect to see a handful of college students visiting the event, supported by local colleges and education providers. It's a fantastic opportunity for the next generation to connect with industry, explore career paths, and experience the region's thriving automotive sector firsthand.

A Day Full of Opportunity

With over 100 exhibitors, the Expo offers a wealth of opportunities to connect with businesses across the automotive and advanced manufacturing supply chain – from OEMs and Tier 1s to innovative SMEs, service providers, and training experts.

A special thank you to our OEM and Tier 1 buyers who are hosting over 100 pre-arranged Meet the Buyer appointments today. These are vital in opening new doors for collaboration across our sector.

We're also grateful to the companies bringing cutting-edge demonstrations to their stands and the Technology Showcase area, highlighting innovation at its best.

Thank You to Our Sponsors

We're proud to work with a fantastic line-up of sponsors, many of whom are longstanding supporters of the Expo. My sincere thanks to:

- Sunderland City Council
- Invest South Tyneside
- TR Fastenings
- Masfix
- Prospot
- Smart Manufacturing Solutions
- SMS Technology
- Education Partnership North East
- CMYK
- Horizon Works

We also welcome new sponsors for 2025, including:

- Preston Technical, NEAA's 2025 SME Innovation Award winner, as Stage Sponsor
- Applied Integration, as Technology Showcase Sponsor
- Pirtek Tyne and Wear, as Refreshments Sponsor

Let's Connect

Finally, I encourage everyone to join us from 3:00pm for the Drinks & Networking Reception near the main stage. It's an ideal way to reflect on the day, make new contacts, and celebrate the success of the 2025 Expo.

Thank you for being part of today's event. Here's to a productive, inspiring, and opportunity-filled day!

Main Stage, Exhibition Hall

09:00

North East Automotive Expo 2025 Opened by Host, Alfie Joey

Alfie Joey is an award-winning keynote speaker (Communicator of the Year, CIPR Awards) and event host. For many years Alfie was the voice of local radio at breakfast time on the BBC where he interviewed pop stars, prime ministers, Olympians & Oscar winners.

09:05

Main Sponsor Welcome

Join us as main sponsor of the North East Automotive Expo 2025, Sunderland City Council, officially opens the event. Hear how Sunderland is powering growth, innovation and investment across the automotive and advanced manufacturing sectors.

Cllr Kevin Johnston, Portfolio Holder for Housing, Regeneration and Business, Sunderland City Council

09:20

NEAA Welcome and Sector Update

Be there as NEAA CEO Paul Butler sets the scene for the day, offering a warm welcome and an insightful look at the latest developments shaping the North East's automotive sector. Find out how the region is driving innovation, building supply chains, and leading on collaboration across the UK and beyond.

Paul Butler, CEO, North East Automotive Alliance

09:30

Good Jobs, Green Jobs – How the Mayor Supports North East Manufacturers

North East Mayor Kim McGuinness will brief delegates on the Local Growth Plan and how it will drive forward opportunities in the advanced manufacturing and automotive sectors across the region.

Kim McGuinness, North East Mayor

10:00

Keynote from AESC

EV Battery manufacturing in the UK – a cutting-edge industry with a long history behind it.

Hear how the North East brought battery manufacturing to the UK and why our region is best placed to develop the next generation of electric vehicles.

Jeff Pratt, Head of UK Operations, AESC

13:30

North East Local Skills Improvement Plan: What it Means for Local Businesses

The NEAA is proud to be appointed as the designated Employer Representative Body for the new North East Local Skills Improvement Plan (NELSIP), which will shape the region's skills priorities and ensure training provision meets the evolving needs of employers. Join this session to hear more about how this will support local businesses over the coming years.

Matt Boyle OBE, Chairman, North East Automotive Alliance and Chair, NELSIP Board

Skills Lounge

The Skills Lounge is back for 2025!

Proudly sponsored by **Education Partnership North East (EPNE)**, this is your go-to spot to connect, learn, and explore the latest skills and training opportunities across the North East.

Whether you're curious about apprenticeships, upskilling your workforce, or skills bootcamps, the EPNE team is here to help your business thrive.

Plus, get the latest updates on the **North East Local Skills Improvement Plan (NELSIP)** and the **Local Skills Improvement Fund (NELSIF)** – designed to boost skills where they matter most.

Pop in anytime during the day – let's power the future of North East manufacturing together!

Skills Lounge sponsored by

**Education
Partnership
North East**

About Education Partnership North East

Education Partnership North East (EPNE) is a substantial multi-award-winning college group which includes Sunderland College, Northumberland College and Hartlepool Sixth Form College.

As the top performing college group in the North East region for student achievement, they have a strong vision of excellence which inspires the next generation, transforms lives and creates a positive impact on the local economy and the diverse communities that they serve.

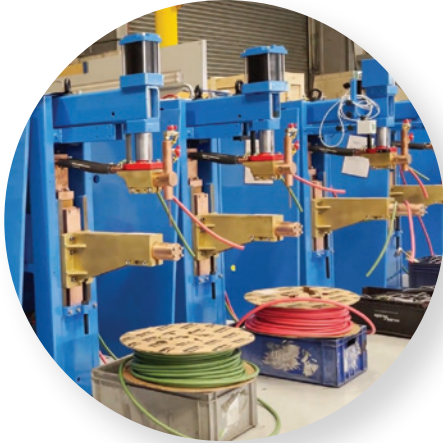

Their pioneering academic and technical curriculum responds to evolving local, regional, and national priorities, and they have invested in world-class facilities across their campuses to equip students and apprentices with the relevant skills and behaviours they need to solve the problems of tomorrow.

EPNE are particularly proud to work with a significant number of automotive industry manufacturers in the region, supporting their apprentices and delivering solutions to meet their recruitment and wider skills needs. They currently support over 400 apprentices employed in more than 100 advanced manufacturing and engineering companies – the majority of which operate in the automotive sector.

EPNE are proud to support the NEAA Expo 2025, which celebrates innovation, collaboration and success, while showcasing the region's industry-shaping automotive sector.

Powered by Intelligence, Made for Movement

AiCart is the next-generation automation solution built to handle all your logistical needs with unmatched agility and intelligence.

Scalable and swarm ready, the AiCart is the affordable, adaptable logistic solution to moving product or tools where they need to be while freeing up your AMR to take on additional tasks, minimising downtime and enhancing efficiency.

Available in a range of materials to suit diverse needs — from hygienic environments to tough industrial use.

Smarter logistics.
Seamless automation.
Limitless potential.

Technology Showcase

Venue Technology Zone, Exhibition Hall, Level 00

We're delighted to unveil the exciting line-up of exhibits joining the Technology Showcase Zone at the North East Automotive Expo 2025!

From cutting-edge automation to next-gen vehicle tech, this year's showcase is packed with innovation that's driving the future of automotive and advanced manufacturing.

Don't miss the chance to see these technologies in action, meet the teams behind the breakthroughs, and discover how they're shaping smarter, more sustainable solutions for our sector.

Visit the Technology Showcase Zone on the Expo floor to experience the innovation first-hand, along with stand C51 where Technology Showcase sponsor, Applied Integration, will be featuring a range of smart automation solutions.

Technology Showcase sponsored by

ADM Automation – iCart

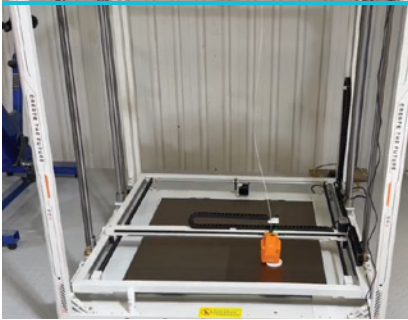

The team at iCart are pioneers in innovative AGV solutions. At the 2025 Expo, iCart will unveil their latest advancement in collaborative robotics, the iCart Mobile Cobot (MC) Series.

Working in partnership with Kassow and Doosan, the iCart MC Series redefines the potential of cobots in industrial settings, offering solutions that promise to revolutionise how tasks are performed across various industries, particularly in manufacturing and logistics.

The iCart MC builds on the iCart2 AGV, bringing class-leading flexibility and utilisation in cobot applications. iCart/Kassow integration offers unique 7-axis cobots for exceptional manoeuvrability, whereas Doosan cobots can impressively handle loads of up to 30kg with a 2m reach.

Technology Showcase

Amtech Rapid Prototyping

Amtech – specialists in rapid prototyping – will be showcasing their large frame 3D printer at this year's Expo. 3D printing is the fastest and most efficient way to transform CAD data into a real-world component, helping manufacturers accelerate innovation and reduce development costs.

See it live on display at the Expo!

INEOS Grenadier and Omega Plastics Group

At this year's Expo, Omega Plastics Group will be proudly exhibiting alongside the formidable INEOS Grenadier – a rugged off-road vehicle built to modernise the legacy of the Land Rover Defender. OPG moulds a selection of interior and exterior components, demonstrating their precision-engineering craftsmanship under challenging conditions.

OPG are a distinguished leader in plastic injection moulding tooling, components, and assembly, proudly serving clients with advanced technical solutions and unwavering commitment to quality. With two 45,000 sq ft sites, the company underscores both its growth and dedication to delivering exceptional customer service.

All-new Nissan LEAF

The all-new Nissan LEAF marks a defining next step in the evolution of the iconic car that started it all. Since its debut in 2010, the Nissan LEAF has sold close to 700,000 units worldwide, earning its place in history as the world's first mass-market electric vehicle.

Today, Nissan is ushering in a new chapter for this nameplate, re-designed and re-engineered to meet the needs of modern EV customers, while remaining true to its innovative roots. See the all-new LEAF on display at the Expo!

MADE NE Skills & Industrial Innovation Centre

Come and meet the team in the Tech Showcase to find out how MADE NE can support your company with its skills and industrial innovation needs.

MADE NE (Manufacturing, Automation, Digitalisation, Electrification North East) offers world-leading, open-access training and industrial innovation facilities in Sunderland. It is part-funded by the North East Combined Authority as a regional approach to workforce skills development from primary school to apprenticeships, to in-work learning and training. Partners include NEAA, AESC, Nissan, Vantec, local colleges and universities.

Applied Integration

Applied Integration specialise in delivering holistic smart solutions that drive process efficiency, productivity, and adaptability.

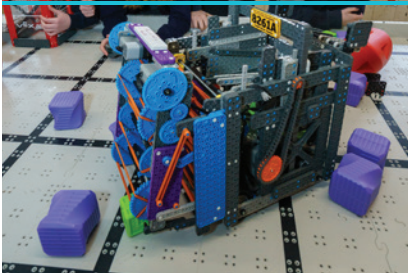

The AiCart is a flexible and scalable logistic solution, enhancing workflows with its on-board intelligence and independent capabilities. Designed to work with a MiR 250, the AiCart is ideal for indoor use in factories and warehouses as it removes the reliance on fixed infrastructure. Swarm technology allows the AiCart to work in a group, adapting as operations grow. There will be four variants of the AiCart on show:

- 2 Conveyor top module
- Robot Arm Module
- CNC Tool Carrier Module

The MiR 250 is a flexible autonomous mobile robot perfect for narrow places due to its smaller footprint. This is ideal for internal logistics within warehouses and laboratories as there is no need to change the layout. The MiR250 can move 250 kg at a speed of 2 metres per second. It has a footprint of 580 x 800 mm and a height of only 30 centimetres.

Technology Showcase

VEX Robotics

A number of schools will this year be featuring their VEX Robotics kits within the Technology Zone. VEX Robotics is educational robotics for everyone. VEX solutions span all levels of both formal and informal education with accessible, scalable, and affordable solutions. Beyond science and engineering principles, VEX encourages creativity, teamwork, leadership, and problem solving among groups. It allows educators of all types to engage and inspire the STEM problem solvers of tomorrow!

Virtual Manufacturing partner with Tulip Platform

Virtual Manufacturing, in long-term partnership with Tulip Platform across the UK, Northern Europe, and Thailand, is proud to showcase Tulip hands-on at the Expo 2025.

We invite you to visit us and experience Tulip's No-Code App Platform for Manufacturing firsthand. Tulip enables the creation of custom shop floor apps without coding, helping track production, collect data, and guide operators in real time for enhanced efficiency and quality.

Tulip's Platform Consists of Four Components

Web-Based App Editor
Add logic to your operations without writing any code – using our app editor, you can make simple work of complex applications.

Edge IOT Connectors
Connecting all of your devices and systems to Tulip is simple. By removing this hassle, you can get started implementing Tulip into your operations immediately.

Real-Time Analytics
Using the Tulip dashboard, you can measure, monitor, and make visible newly actionable process data through visual analytics.

Community Resources
Learn everything you need from free online courses in Tulip University, chat with experienced users and staff on our Knowledge Base, and download best-in-class apps and connectors from the Tulip Library.

Purple Tulip is Precision

TULIP

SPARK – Precision cleaning for automotive manufacturing

SPARK is a UK technology company specialising in advanced service robotics, cleaning automation and EPOS solutions.

Featured in the Tech Zone is their all-in-one autonomous cleaning robot with integrated AutoDock technology, enabling automatic water refills and battery charging without human intervention. Combined with advanced navigation and lift integration, it provides fully autonomous, multi-floor cleaning across large-scale facilities.

Each unit delivers real-time performance data via custom APIs, supporting ESG reporting and predictive maintenance. The result: cleaner floors, reduced downtime and measurable sustainability gains, all without disrupting production.

Vantec Interactive Experience (VIE): Transforming workforce training, customer engagement and business growth

Fully adaptable across all sectors, VIE utilises gamification and interactive, immersive technology to simulate real-life environments, helping organisations stand out, attract new customers through product or service marketing and sales, grow existing relationships, and strengthen the workforce through training that drives growth and long-term success.

Whether you need a fixed or mobile system, with 360 or 270-degree coverage and one, two, three or four wall and floor projection options, Vantec's Innovation Team guides you from installation to ongoing support.

Our services include:

1. Expert setup
2. User training
3. Custom content creation options
4. Maintenance options

"The possibilities are as boundless as our imaginations".

Visit us at the Expo this year on stand C36-37 to see a mobile one-wall VIE in action and discover how our solutions can generate a positive return on investment (ROI) for you.

Thermal Vision Industrial launch "The Total Thermal Solution" – from FLIR Cameras to Robot Dogs

Innovators in thermal imaging and storytelling, the Thermal Vision Industrial offering combines state-of-the-art FLIR thermal cameras, the Unitree GO2 robotic platform, and a full suite of video production and consultancy services.

Delegates can now:

- Hire or purchase thermal cameras for defence, aerospace, automotive, and R&D applications.
- Hire or purchase the Unitree GO2 robot dog, complete with thermal and visual integration, for demonstrations, events, and field testing.
- Access end-to-end video production, post-production, and campaign strategy to showcase projects with impact.

Drinks & Networking Reception

Sponsored by

Venue Main Stage area

Time 15.00 – 16.30

Raise a Glass to Innovation and Connection

To mark the close of the North East Automotive Expo 2025, the NEAA is pleased to invite all delegates and exhibitors to a Drinks & Networking Reception, proudly sponsored by Smart Manufacturing Solutions and SMS Tech.

Taking place at the end of the Expo, the reception offers a relaxed, informal setting to reflect on the day, reconnect with industry peers, and celebrate the region's role at the forefront of the UK's automotive and advanced manufacturing sectors.

Whether you're catching up with customers, meeting new contacts, or simply unwinding after a packed schedule, this is a perfect opportunity to strengthen relationships and explore new business opportunities in a friendly, engaging environment.

We look forward to raising a glass with you!

Event Catering

Lunch sponsored by

Time

12.00 – 13.00

We're pleased to offer **complimentary lunch** to all attendees at the **North East Automotive Expo 2025**, kindly sponsored by **Masfix**.

Lunch will be served from a food van located outside the main venue, provided by a fully accredited catering partner known for quality and service.

To help us serve everyone efficiently, we kindly ask attendees to make **one visit to the catering van** during the designated lunch period.

Indoor seating and tables are available, providing a comfortable space to relax, recharge, and network with fellow attendees.

Refreshments sponsored by

Stay Refreshed, Courtesy of Pirtek Tyne and Wear

We're pleased to offer **complimentary tea, coffee, and water** throughout the day, thanks to our **Refreshments Sponsor, Pirtek Tyne and Wear**.

Hydration and hot drinks are available at **staffed Refreshment Stations**, conveniently located within the main exhibition hall.

Take a break, recharge, and enjoy a drink while making valuable connections on the show floor.

Outside of lunch sponsor hours, all other catering facilities will be open for refreshments.

The Drinks & Networking Reception for all attendees will take place at the Main Stage area between 15.00-16.30.

3t Training Services

Stand B10

Pamela McCormack

t: 07477 068161

e: pamela.mccormack@3tglobal.com

w: www.3ttrainingservices.com

With over 35 years industry experience, 3t Training Services is the UK's leading provider of safety-critical training. Offering 600+ accredited courses, we support all career stages. Our Newcastle and Middlesbrough centres deliver expert-led, hands-on learning in safety, technical, and skills-based disciplines, helping individuals and businesses achieve their goals.

Amtech Rapid Prototyping Ltd

Stand C21 & Tech Zone

Ian Judd

t: 07815 500639

e: ian.judd@amtech-rp.co.uk

w: www.amtech-rp.com

Amtech Rapid Prototyping offers 3D-printing, low volume plastic production and rapid prototyping services – including FDM, SLA and SLS. They also provide Vacuum and RIM Casting, silicone tooling, low volume production, model making and specialist paint finishes, and are based in the North East of England.

Advanced Propulsion Centre

Stand C6

Kamilia Boughenout

t: 07564 580400

e: kamilia.boughenout@apcuk.co.uk

w: www.apcuk.co.uk

The Advanced Propulsion Centre UK (APC UK) collaborates with UK government, the automotive industry, and academia to drive research and investment in zero-emission vehicle manufacturing. Established in 2013 and jointly funded by DBT and industry, APC UK accelerates technologies supporting zero-emission vehicle manufacturing and a net-zero automotive supply chain.

Ansell

Stand C17

Martin Whitehead

t: 07881 913596

e: martin.whitehead@ansell.com

w: www.ansell.com/gb/en

Ansell delivers high-quality, innovative hand and body protection, safeguarding industrial workers from chemical, mechanical, cut, and electrical hazards. With a global footprint, factories, and 130 years of expertise, we stay two steps ahead of workplace risks while embedding sustainable practices into our processes and designing products that protect people worldwide.

Applied Integration

Tech Demo Area – C53

Josh Loffhouse

t: 01642 717555

e: josh.loffhouse@appliedintegration.co.uk

w: www.appliedintegration.co.uk

Founded in 2005 in Stokesley, North Yorkshire, Applied Integration (AI) is a leading UK provider of robotics, Automated Guided Vehicles (AGVs), and advanced automation solutions. We design and deliver intelligent control systems for some of the most complex and demanding industry sectors across defence, manufacturing, and beyond.

Avon TSA Limited

Stand C16

Andrew Francis

t: 01495 312 666

e: afrancis@tsa-ltd.co.uk

w: www.avon-group.co.uk

Avon TSA is part of Avon Group, a multifaceted engineering and manufacturing business that really cares about solving challenging problems across a wide spectrum of industries and offering solutions that deliver tangible value. Avon Group is the largest, independent, privately-owned business in the UK that designs and manufactures an extensive range of parts and components for the automotive and transportation sectors.
