UNIPRES

Pressing Toward a Brighter
Tomorrow

**VISIT US AT
STAND A29**

Unipres UK

Unipres UK Limited is a leading Tier 1 automotive manufacturer based in Sunderland, specialising in high-quality structural body components and assemblies.

Established in 1987, Unipres UK combines advanced cold and hot stamping, laser processing, robotic assembly and engineering expertise to deliver lightweight, high-strength solutions to major global vehicle manufacturers.

With over 800 employees and more than £185 million invested in the business, Unipres UK continues to build on its proud heritage of quality, innovation and automotive manufacturing excellence.

LOOKING AHEAD

As we look to the future, Unipres UK is embracing new opportunities and adapting to a rapidly changing global landscape.

Our strategic focus includes strengthening our core automotive business while also diversifying into new sectors where our manufacturing capabilities can make a significant impact.

1. Expanding Our Original Equipment Manufacturer Partnerships (OEM)
We are actively developing new business relationships with additional automotive OEM's, broadening our reach beyond our current portfolio.
2. Exploring Non-Automotive Sectors
Unipres UK's manufacturing expertise – especially in highstrength metal pressing, robotic assembly, and high-volume production – is well-suited for industries beyond automotive.
3. Commitment to Sustainability and Innovation
Sustainability and innovation are central to our long-term vision. As part of our environmental commitment, Unipres UK is dedicated to achieving a 50% reduction in greenhouse gas emissions by 2030 and reaching net zero by 2050.

TR - Global Automotive Solutions

What we supply

TR partners with automotive OEMs and Tier 1 suppliers worldwide, delivering engineered fastening and Category C component solutions supported by technical expertise, supply chain management and global logistics. As a total solutions provider, we simplify procurement, improve operational efficiency and drive innovation throughout the vehicle development lifecycle.

Where we supply

Welcome

to the North East Automotive Expo 2026

Paul Butler,
CEO, NEAA

Welcome to the North East Automotive Expo 2026 and thank you for joining us in Sunderland, the heart of the UK's automotive sector.

The Expo brings together manufacturers, innovators, educators and industry leaders for a powerful day of connection, insight and opportunity. From the Main Stage and Skills Lounge to Meet the Buyer and the Technology Showcase, today is about sharing expertise, building partnerships and unlocking growth.

This year's Main Stage looks firmly to the future. Highlights include a welcome from NEAA's new Chair, Martin Kendall of LOGISTEED, a keynote from Nissan reflecting on 40 years of manufacturing excellence in the North East, alongside a panel exploring how regional supply chain capabilities can open doors across rail, defence, space, offshore energy, pharmaceuticals and off-highway machinery.

Cyber resilience also takes centre stage, with industry experts examining the evolving threats facing manufacturers and practical ways to protect increasingly connected supply chains.

Later, I will be joined by Alison Maynard to share the latest developments on NELSIP 2026–2029 and the new Advanced Manufacturing Technical Excellence College, exploring how employers can help shape the skilled workforce our sector needs.

A huge thank you to our sponsors, exhibitors, speakers and partners for making today possible. Make the most of every conversation, discover new ideas and join us from 3pm for the Drinks & Networking Reception.

Enjoy Expo 2026. Let's connect, collaborate and drive the future of manufacturing together.

Agenda

Keynote speakers and panel discussions

09:00 - 09:05	North East Automotive Expo 2026 opened by host, Alfie Joey
09:05 - 09:20	Main Sponsor Welcome: Patrick Melia, Chief Executive, Sunderland City Council
09:20 - 09:35	NEAA Welcome and Sector Update: Martin Kendall, Chairman, North East Automotive Alliance
09:40 - 10:00	Keynote Address: 40 Years of Manufacturing Excellence and the Road Ahead: Nissan Motor Manufacturing UK Lee Watson , Production Director, Nissan Motor Manufacturing UK
10:30 - 11:15	Future-Proofing the Supply Chain: Winning Work Beyond Automotive The North East has developed world-class expertise in manufacturing, engineering and supply chain management. This panel will explore how businesses can leverage those capabilities to enter adjacent markets, build resilience and secure new growth opportunities beyond automotive. Opportunities discussed will include rail, defence, space, offshore energy, pharmaceuticals and off-highway machinery. Panel Chair • Danielle Phillips, Assistant Director of Inward Investment & Business Growth, North East MSA Panellists • Dave Luscombe, Special Projects Consultant, Construction Equipment Association (CEA) • Elaine Clark OBE, CEO, Rail Forum • Lesley Hawke, Programme Manager, North East Regional Defence & Security Cluster (NERDSC) • Lisa Mullen, Interim Director, Space North East England • Paul Livingstone, Head of Membership, NOF • Philip Aldridge, Board Member, North East Pharma

09:00 - 15:00	Exhibition
09:00 - 15:00	Skills Lounge
09:00 - 15:00	Meet the Buyer (Note: these are pre-arranged)

13:10 - 13:50	Securing the Supply Chain: Cyber Security in Manufacturing If a JLR incident happened in your business, could you survive? As manufacturing becomes increasingly connected, cyber security is no longer just an IT issue. It is a business-critical challenge that affects every part of the supply chain. From ransomware attacks and data breaches to vulnerabilities within supplier networks, manufacturers of all sizes face growing threats that can disrupt operations, damage customer trust and impact competitiveness. Delivered in partnership with CyberNorth, NEAA member organisations and wider stakeholders, this panel session will bring together industry experts, manufacturers and cyber security specialists to explore the evolving threat landscape and discuss practical strategies for building a more resilient supply chain. Panel Chair • Thea Scott, Director, CyberNorth Panellists • Martin Kendall, Managing Director, LOGISTEED UK Limited • Craig Pratt, Director, CMYK Business Technology • Lloyd Bonson, Head of Manufacturing, Waterstons • Craig Hester, Head of Operations, Net-Defence • Nigel Sutton, Senior Cyber Consultant, CGI • Representative from Nissan
14:00 - 14:35	Delivering Skills for Growth: NELSIP 2026-2029 and AMTEC's Role in Building the Workforce of the Future Paul Butler, CEO, North East Automotive Alliance Alison Maynard, Deputy Principal, New College Durham

15:00	Drinks & Networking Reception
16:30	Event Closes

Headline Speakers

Main Stage, Exhibition Hall, Level 00

09:00

North East Automotive Expo 2026 opened by host, Alfie Joey

Alfie Joey is an award-winning keynote speaker (Communicator of the Year, CIPR Awards) and event host. For many years Alfie was the voice of local radio at breakfast time on the BBC where he interviewed pop stars, prime ministers, Olympians and Oscar winners.

09:05

Main Sponsor Welcome

The North East Automotive Expo 2026 officially gets underway with a welcome from Main Sponsor, Sunderland City Council. Hear how the city is championing innovation, attracting investment and creating the conditions for automotive and advanced manufacturing businesses to thrive.

Patrick Melia, Chief Executive, Sunderland City Council

09:20

NEAA Welcome and Sector Update

Join the new NEAA Chair for a welcome address and an insightful overview of the automotive sector, exploring emerging opportunities, current supply chain challenges, and the key priorities shaping NEAA's agenda for the year ahead.

Martin Kendall, Chairman, North East Automotive Alliance

09:40

Nissan Keynote Address: 40 Years of Manufacturing Excellence and the Road Ahead

As Nissan marks four decades in the North East, this keynote will reflect on the company's journey, the evolution of one of Europe's most productive automotive manufacturing clusters and the critical role played by the regional supply chain in supporting long-term growth and innovation.

Lee Watson, Production Director, Nissan Motor Manufacturing UK

14:00

Delivering Skills for Growth: NELSIP 2026-2029 and AMTEC's Role in Building the Workforce of the Future

This joint session will provide an update on the North East Local Skills Improvement Plan (NELSIP) 2026-2029 and introduce the new Advanced Manufacturing Technical Excellence College (AMTEC).

Delegates will hear how employers can help shape future workforce provision, the significance of AMTEC status for the region, and how enhanced technical education pathways will support advanced manufacturing growth, addressing the skills needed by employers and wider regional economic ambitions.

Paul Butler, CEO, North East Automotive Alliance

Alison Maynard, Deputy Principal, New College Durham

Future-Proofing the Supply Chain: Winning Work Beyond Automotive

Main Stage - 10:30 - 11:15

The North East has built a global reputation for automotive excellence, developing world-class expertise in advanced manufacturing, engineering and supply chain management. However, many of these same capabilities are in growing demand across a range of high-value sectors beyond automotive.

As markets evolve and supply chains become increasingly interconnected, diversification is becoming a key strategy for building resilience, securing new revenue streams and unlocking long-term growth.

This panel will bring together industry specialists from rail, defence, space, offshore energy, pharmaceuticals and off-highway machinery to share practical insights on entering new markets, winning work in adjacent sectors and building a more resilient business.

Securing the Supply Chain: Cyber Security in Manufacturing

Main Stage - 13:10 - 13.50

If a JLR incident happened in your business, could you survive?

As manufacturing becomes increasingly connected, cyber security is no longer just an IT issue. It is a business-critical challenge that affects every part of the supply chain. From ransomware attacks and data breaches to vulnerabilities within supplier networks, manufacturers of all sizes face growing threats that can disrupt operations, damage customer trust and impact competitiveness.

Delivered in partnership with CyberNorth, NEAA member organisations and wider stakeholders, this panel session will bring together industry experts, manufacturers and cyber security specialists to explore the evolving threat landscape and discuss practical strategies for building a more resilient supply chain.

It will be opened by Martin Kendall, Managing Director at LOGISTEED UK, who will set the scene and share details of a cyber threat that took place within their business and how they were positioned to react.

Advanced Manufacturing Technical Excellence College

Powered by New College Durham

Developing the talent, innovation and technical skills that will drive the next generation of manufacturing.

Employer-led curriculum, shaped by industry

Delivering the skilled workforce industry needs now and for the future

Hands-on, industry based learning

High quality training designed for industry

Find out how **AMTEC** can help your business

T: 0191 375 4000 **E: help@newdur.ac.uk**

Skills Lounge

The Skills Lounge, proudly sponsored by the Advanced Manufacturing Technical Excellence College (AMTEC)

The Skills Lounge has become a popular feature of the Expo, providing a dedicated space for employers, educators and industry professionals to connect, learn and explore the latest skills and workforce development opportunities available across the North East.

Whether you're looking to recruit new talent, develop existing employees, discover apprenticeship pathways or identify training solutions to support business growth, the Skills Lounge is the place to start.

Throughout the day, visitors can meet with the AMTEC team who are helping to shape the future workforce of the region's automotive sector.

In an industry driven by innovation, technology and transformation, investing in people has never been more important. The Skills Lounge offers valuable insight into the programmes, funding opportunities and support available to help businesses build the skills needed for future success.

Pop in anytime during the day – let's power the future of North East manufacturing together!

About AMTEC

New College Durham is one of only four colleges across the country to have been recognised as an Advanced Manufacturing Technical Excellence College (TEC), positioning it at the forefront of delivering employer-led technical education and advanced manufacturing skills development.

Through industry-led training, apprenticeships, technical qualifications and workforce development programmes, AMTEC works closely with employers to equip individuals with the practical skills and knowledge required in today's advanced manufacturing environment.

Supporting learners at every stage of their career journey, AMTEC plays a vital role in strengthening the talent pipeline and helping businesses access the skilled workforce needed to drive innovation, productivity and long-term growth.

Skills Lounge sponsored by

UK's Leading Manufacturer of Resistance Welding Products

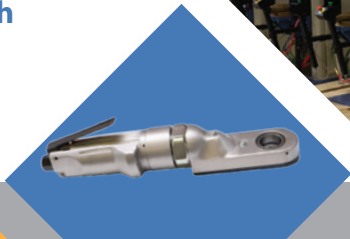

Prospot Ltd. has built a strong reputation in Resistance Welding machines, refurbishments, fixtures, tooling, consumables, automation and expert technical support. Established in 1997, Prospot incorporates British Federal, Meritus, Hirst Holden & Hunt and Gatwick (FPE), alongside key partnerships with Serra, Luvata and CEA. From individual electrodes to fully automated multi-robot assembly cells, Prospot delivers comprehensive joining solutions to leading manufacturers.

Alongside Resistance Welding, Prospot provides clinching, SPR, Stud Welders and gluing solutions, plus adaptive welding through its Fleximan and Multiman ranges. With manufacturing facilities in the UK and Slovakia, Prospot provides Customers with dedicated service and spares support across Europe and multiple industries, including Aerospace, Automotive, Rail, Renewable Energy, Oil and Construction.

Meet the Buyer

Venue Exhibition Hall, Level 00, Meeting Rooms, Level 01 & Workshop Rooms, Level 02

Time 10.00 - 15.00

Meet the Buyer – over 100 one-to-one appointments happening today!

One of the most valuable opportunities at the North East Automotive Expo, the Meet the Buyer programme is designed to connect suppliers directly with key purchasing and decision-making representatives from leading manufacturers and Tier 1 organisations across the automotive supply chain.

Through a series of pre-arranged one-to-one meetings, participants can showcase their capabilities, discuss opportunities and build relationships that could lead to future business growth.

Meet the Buyer appointments are pre-booked and take place throughout the day in designated meeting areas.

Please check your meeting schedule and venue signage for room and booth locations.

Meeting Locations

Level 00 Main Exhibition Floor

Level 01 Meeting rooms near the Registration Desk

Level 02 Workshop rooms (all clearly signposted)

Each meeting lasts 20 minutes. If you're unsure where to go, please ask a member of our event staff.

Can't make a meeting? Let the event staff know as soon as possible to help us keep everything running smoothly.

New for 2026: Grants Clinic at the North East Automotive Expo

Stand M1

We're excited to showcase a brand-new Grants Clinic at this year's event, delivered in partnership with Clive Owen.

Designed to help businesses navigate the funding landscape, this new feature gives attendees the opportunity to have a 20 minute 1-2-1 session with Partner, Carl Wright. Attendees will gain expert advice and practical tips on bid writing and grant funding applications.

Whether you're exploring opportunities such as DRIVE35 or the Supplier Readiness Transformation (SRT) programme, these sessions will provide valuable guidance to strengthen your applications and improve your chances of success.

What to expect:

- Advice on current funding opportunities
- Practical insights into writing stronger bids
- Expert guidance from an experienced funding specialist
- A focused, confidential session tailored to your business

Visit Stand M1 for more support.

Grants Clinic sponsored by

New for 2026: Supplier Readiness & Transformation (SRT) Surgery Hub

Stand M9

Are you currently part of the electric vehicle supply chain, or looking to diversify into this growing sector?

Visit the **SRT Surgery at Stand M9** to learn more about the funding and specialist support available to help businesses invest, improve productivity, adopt new technologies, strengthen supply chain capability and unlock growth opportunities across the advanced manufacturing and electric vehicle sectors.

The programme is funded by the **Department for Business, Innovation, Science and Trade (BIST)** and delivered by the **North East Mayoral Strategic Authority (North East MSA)**.

Members of the programme team will be available throughout the event to discuss:

- Eligibility and application requirements
- Current funding opportunities
- Productivity and operational improvement projects
- Digital and manufacturing technology adoption
- Supply chain development and resilience
- Capital investment and business growth plans

Whether you are exploring an early-stage project idea, considering future investment, or preparing an application, our team will be on hand to provide practical advice and answer your questions.

The team can also provide information on wider North East Growth Hub business support, helping businesses access the guidance, programmes and opportunities available to support growth, innovation and investment.

Visit Stand M9 to discover how the SRT Surgery could help accelerate your next business investment project.

Technology Showcase

Venue Technology Zone, Exhibition Hall, Level 00

We're delighted to unveil the exciting line-up of exhibits joining the Technology Showcase at the North East Automotive Expo 2026!

From cutting-edge automation and smart manufacturing technologies to iconic British-built vehicles, this year's showcase brings together the heritage, innovation and engineering excellence that continue to shape the future of automotive and advanced manufacturing.

Visitors will have the opportunity to experience a range of technologies up close, meet the experts behind the innovations and gain insight into the smarter, more sustainable solutions transforming our sector. Highlights include the latest automation and digital technologies, alongside an original Nissan Bluebird, celebrating the region's rich automotive manufacturing legacy, and current Sunderland-built Nissan models including the Qashqai, Juke and all-new LEAF.

Be sure to visit the Technology Showcase area on the Expo floor to experience the innovation first-hand. You can also meet Technology Showcase Sponsor Applied Integration at Stand C49, where the team will be demonstrating a range of advanced automation and smart manufacturing solutions designed to improve productivity, efficiency and operational performance.

Technology Showcase sponsored by

Applied Integration

Applied Integration specialises in delivering holistic smart solutions that drive process efficiency, productivity, and adaptability.

The AiCart is a flexible and scalable logistic solution, enhancing workflows with its on-board intelligence and independent capabilities. Designed to work with a MiR 250, the AiCart is ideal for indoor use in factories and warehouses as it removes the reliance on fixed infrastructure. Swarm technology allows the AiCart to work in a group, adapting as operations grow. There will be four variants of the AiCart on show:

- 2 Conveyor top module
- Robot Arm Module
- CNC Tool Carrier Module

The MiR 250 is a flexible autonomous mobile robot perfect for narrow places due to its smaller footprint. This is ideal for internal logistics within warehouses and laboratories as there is no need to change the layout. The MiR250 can move 250 kg at a speed of 2 metres per second. It has a footprint of 580 x 800 mm and a height of only 30 centimetres.

Technology Showcase

British-built Nissan Cars: Qashqai, Juke and LEAF

The NEAA is proud to champion an exclusive offer for member companies, helping put more UK-built vehicles on the road while supporting British manufacturing. Through this initiative, members, their families and friends can access competitive offers on Nissan's Sunderland-built Qashqai, Juke and all-new 100% electric LEAF.

Built in the UK for over 20 years, the award-winning Qashqai remains one of Nissan's greatest success stories, combining practicality, innovation and everyday versatility. The Juke has redefined the compact crossover segment since its launch, attracting more than 1.5 million customers across Europe with its distinctive design and character.

The Nissan LEAF continues to play a key role in the UK's electric vehicle transition. Produced in Sunderland since 2013, it helped make electric motoring accessible to the mass market and remains a landmark model in EV manufacturing.

Supported by Nissan Motor GB, Lookers Motor Group and Select Lease by Mobilize, the scheme offers attractive business and personal contract hire options. The full vehicle line-up will be available both inside and outside the Expo for delegates to view and explore.

SPARK Robotics

SPARK Robotics is a UK-based provider of autonomous cleaning, service and industrial robots, helping businesses automate repetitive work and improve efficiency across commercial and industrial environments.

In the Technology Zone, the S5 will demonstrate intelligent debris detection, spot cleaning, dynamic environment adaptation and smart AI navigation. The SP50 will showcase intelligent auto-spot detection, smart waste recognition, edge-to-edge cleaning and advanced navigation.

On its main stand, A31, they will also feature the L50 and L3 autonomous scrubbers, together with KettyBot for greeting, delivery and advertising.

SPARK's wider portfolio supports cleaning, service, delivery and industrial operations across automotive, manufacturing, warehousing and commercial facilities. Visit the team to discuss your operational requirements and book a tailored on-site demonstration.

RARUK Automation

In the Technology Zone, RARUK Automation will showcase mobile robots from Mobile Industrial Robots (MiR), including the MiR250 autonomous mobile robot (AMR). With a payload capacity of up to 250 kg, the MiR250 is ideal for line-side component delivery, kitting operations, transporting engines, battery modules and body parts, and removing empty containers or production waste.

Visitors will also see a Mobile Cobot, which combines a Universal Robots arm with a MiR AMR base. This mobile manipulator robot provides added flexibility, ideal for applications including material transport, machine tending, assembly line support and quality inspection in automotive manufacturing environments.

Nissan Bluebird

Adding a touch of North East automotive heritage, we are delighted to display an original Nissan Bluebird. As one of the first models produced at Nissan Sunderland Plant, the Bluebird represents the start of a remarkable 40-year manufacturing success story that helped establish the North East as a world-class automotive hub.

Smart Intralogistics Group – iCart Logistics

The Smart Intralogistics Group (SIG) brings together iCart, Bosch Rexroth and Kassow Robots

to demonstrate how integrated automation can deliver significant productivity gains in automotive assembly and packing operations.

At the exhibition, SIG will demonstrate the iCart MOCO mobile cobot, that combines autonomous material movement with safe robotic handling. The MOCO, using a Kassow Robot, will deliver components directly to Bosch assembly and packing workstations.

The demonstration is built around a simple principle: the Single Step Rule. Materials, components and finished assemblies should be positioned so that the operator can complete the task without unnecessary walking, stretching or repeated handling. Instead of the operator leaving the workstation to collect or move materials, smart mobile automation brings the work to the operator. This approach allows operators to remain focused on value-adding assembly and packing activities while iCart MOCO and the workstation automation manage the movement and presentation of materials.

The integrated SIG approach can deliver potential productivity savings of around 30% in a typical assembly or packing operation. The result is a practical demonstration of how smart intralogistics can improve productivity without requiring highly complex factory automation.

Masfix and TBox Tech

Masfix will be joining forces with TBox Tech in the Technology Zone to showcase the future of smarter inventory management.

Visitors can expect to see live RFID technology in action with demonstrations on how this technology can provide real-time stock visibility, reduce downtime, improve accountability and make managing essential consumables easier and more efficient.

It's a great opportunity to see how Masfix and TBox Tech work together to combine products, expertise and technology to support the needs of modern automotive and advanced manufacturing businesses.

VEX Robotics

A number of schools will once again feature their VEX Robotics kits within the Technology Zone. VEX Robotics is educational robotics for everyone. VEX solutions span all levels of both formal and informal education with accessible, scalable, and affordable solutions. Beyond science and engineering principles, VEX encourages creativity, teamwork, leadership, and problem solving among groups. It allows educators of all types to engage and inspire the STEM problem solvers of tomorrow!

**SUPPLIER
MANAGER**

THE **NEW** WAY TO MANAGE YOUR SUPPLY CHAIN

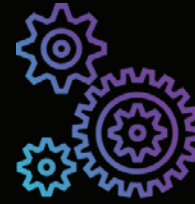

Phone Number
+44 (0) 3334432522

Email Address
Info@sms-tech.org

Website
<https://sms-tech.org>

SMS
TECHNOLOGY
STRIVING FOR EXCELLENCE

- M**ANAGE DIRECT & INDIRECT SUPPLIERS
- A**UTOMATE APPROVALS & COMPLIANCE
- G**ENERATE OPPORTUNITIES
- I**MPROVE VISIBILITY OF YOUR SUPPLY CHAIN
- C**ONFIGURABLE COMMUNICATION

AFTER 18 MONTHS OF DESIGN, DEVELOPMENT AND COLLABORATION WITH SEVERAL NEAA MEMBERS, WE ARE PROUD TO INTRODUCE SUPPLIER MANAGER.

BUILT AROUND REAL CHALLENGES EXPERIENCED ACROSS MANUFACTURING SUPPLY CHAINS, SUPPLIER MANAGER BRINGS PURCHASING, QUALITY, PRODUCTION AND SUPPLIERS TOGETHER IN ONE CONNECTED PLATFORM.

REMOVE THE FRUSTRATION OF MULTIPLE SPREADSHEETS, DISCONNECTED SUPPLIER RECORDS AND POOR VISIBILITY OF SUPPLIER PERFORMANCE, CAPABILITIES AND APPROVAL STATUS.

MANAGE DIRECT AND INDIRECT SUPPLIERS IN ONE PLACE, WHILE GIVING YOUR SUPPLY CHAIN GREATER VISIBILITY OF OPPORTUNITIES TO SUPPORT AREAS WHERE THEY ALREADY HAVE THE CAPABILITY — BUT MAY NOT CURRENTLY HOLD APPROVAL.

THE RESULT? A MORE VISIBLE, COLLABORATIVE AND RESILIENT SUPPLY CHAIN, WITH THE ABILITY TO IDENTIFY ALTERNATIVE CAPABILITY WHEN AND WHERE IT IS NEEDED.

AND BECAUSE SUPPLIER MANAGER IS BUILT ON THE SMS TECH PLATFORM, IT BRINGS PROVEN FUNCTIONALITY WITH IT — INCLUDING ENGINEERING DRAWING UPLOADS AND MARK-UPS, DEFECT IDENTIFICATION, GEOLOCATION, BARCODE SCANNING, DIGITAL APPROVALS, REAL-TIME VISIBILITY AND MORE. ONE PLATFORM. YOUR SUPPLIERS. THEIR CAPABILITIES. COMPLETE VISIBILITY.

NOW YOU CAN REALLY MANAGE YOUR SUPPLY CHAIN.

Drinks & Networking Reception

Sponsored by

Venue Main Stage Area

Time 15.00 – 16.30

Raise a glass to 40 years of automotive excellence in the North East of England.

As the exhibition hall closes, delegates are invited to join industry colleagues, customers, suppliers and partners for further networking, collaboration and celebration. The reception offers a chance to reflect on the day's insights, discuss new opportunities and build the relationships that help drive growth across the automotive manufacturing sector.

This year's Drinks & Networking Reception is proudly sponsored by **Smart Manufacturing Solutions (SMS)** and **SMS Technology**, two organisations committed to helping manufacturers embrace digital transformation, operational excellence and future-focused technologies.

Their continued support of the North East Automotive Expo reflects a shared commitment to strengthening the region's manufacturing community and creating opportunities for innovation, collaboration and business growth. They are listed among the returning supporters of the Expo, helping make this flagship industry event possible.

Whether you're looking to reconnect with familiar faces, meet potential customers, explore new partnerships or simply unwind after a busy day, the Drinks & Networking Reception provides the ideal setting to make meaningful connections and maximise your Expo experience.

Event Catering

Lunch sponsored by

Time

12.00 – 13.00

Take a well-earned break and make the most of valuable networking opportunities during the Expo lunch period, proudly sponsored by **Masfix**. As one of the North East's leading suppliers of fixings, fasteners, tools, PPE and engineering consumables, Masfix has built a reputation for reliability, innovation and exceptional customer service across the manufacturing sector.

Complimentary lunch will be available to all delegates and exhibitors from **12:00 – 13:00**, served from a dedicated food van located outside the venue. Enjoy a range of freshly prepared food while connecting with industry colleagues, customers, suppliers and new contacts in a relaxed environment.

Indoor seating areas will also be available, providing the perfect space to recharge before an afternoon packed with networking and business opportunities.

Refreshments sponsored by

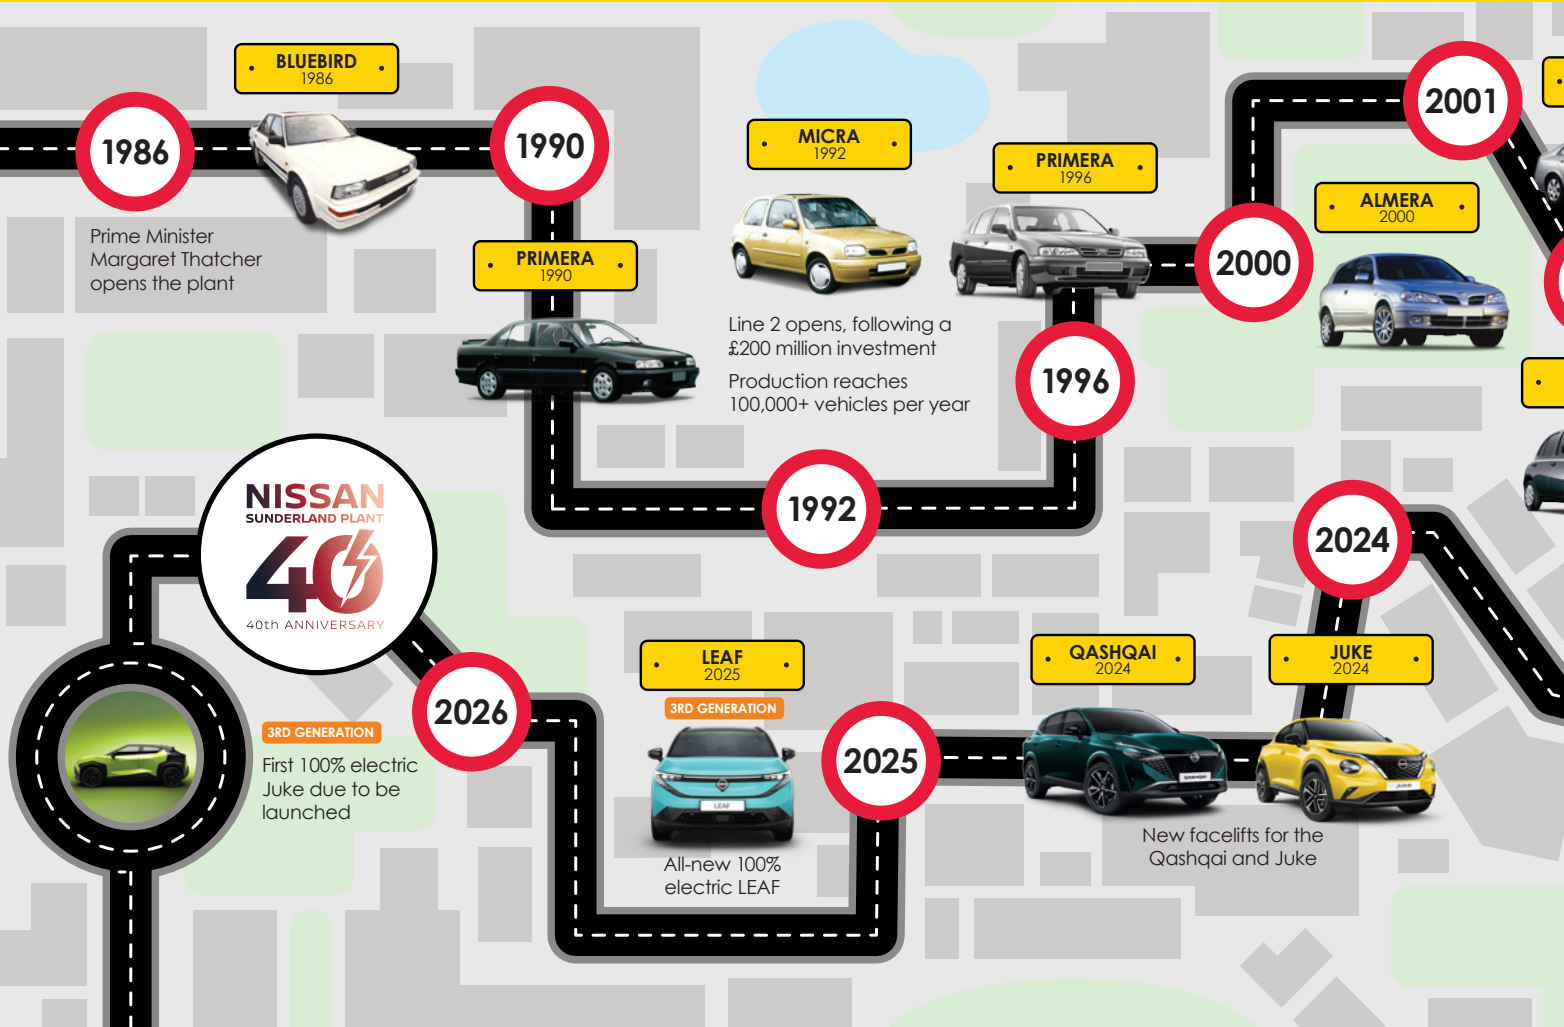

Stay refreshed throughout the day thanks to **Muckle LLP**, one of the North East's most respected commercial law firms and proud sponsor of the Expo refreshment facilities. Renowned for supporting businesses at every stage of their growth journey, Muckle advises organisations across key sectors including manufacturing, engineering, technology and infrastructure.

Complimentary tea, coffee and water will be available throughout the event from two staffed refreshment stations located within the exhibition hall. Whether you're preparing for your next meeting, taking a break between presentations or catching up with fellow delegates, the refreshment areas provide an ideal setting to continue conversations and build valuable business connections.

Outside of lunch sponsor hours, the venue's other catering facilities will also be open all day for refreshments.

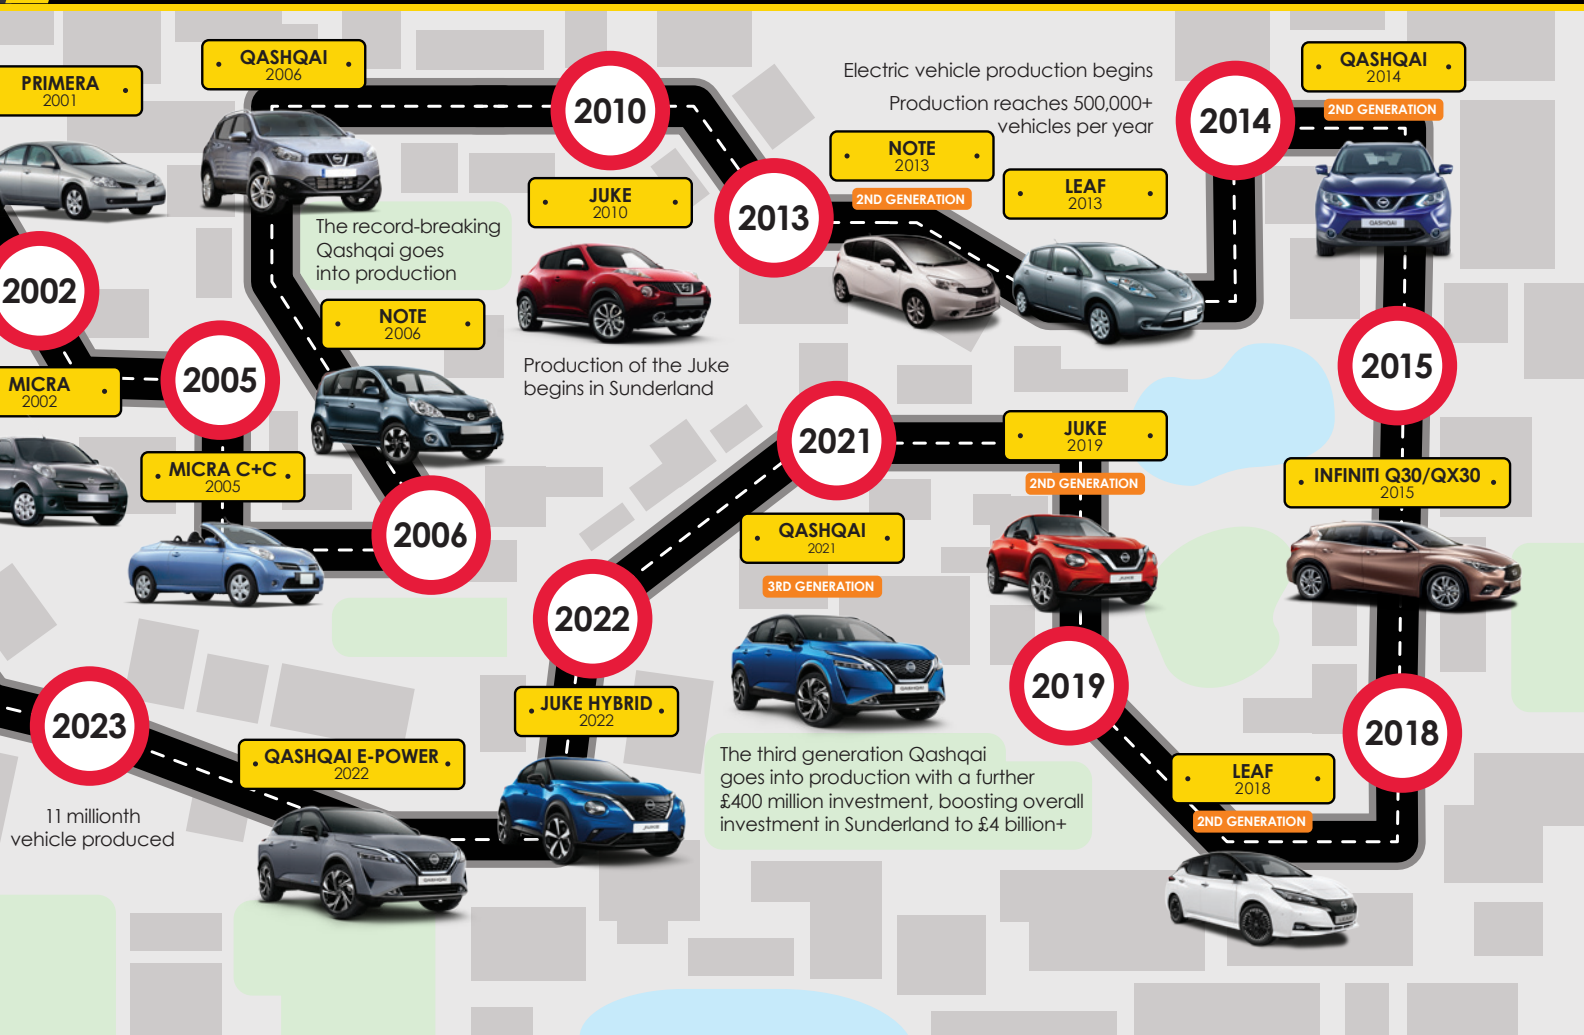

The Drinks & Networking Reception for all attendees will take place at the Main Stage area between 15.00 - 16.30.

The Nissan Sunderland Plant is the UK's largest car manufacturing plant. Currently employing 6,000 people, the plant builds the Nissan Qashqai, Qashqai e-Power, Juke, Juke Hybrid and the all-new 100% electric Nissan LEAF. Next year will see the launch of the 100% electric Nissan Juke, which will become the plant's second electric vehicle.

NOF

Stand C10

Paul Livingstone

t: 0191 375 1639

e: plivingstone@nof.co.uk

w: www.nof.co.uk

We are NOF, a business development organisation helping to make valuable connections between businesses in the global energy sector. We work on behalf of our members and our network of partners to put companies of all sizes in touch with the best and most innovative supply chain businesses in the UK.

Exhibitors A-Z | N-N profiles

North East Automotive Alliance

Stand A28

Joe Routledge

t: 07841 324323
e: jroutledge@northeastautomotivealliance.com
w: www.northeastautomotivealliance.com

The North East Automotive Alliance (NEAA) is more than a membership organisation. We are a business growth network, skills catalyst and industry voice bringing together manufacturers, suppliers, technology providers, education partners and policymakers to share best practice, drive collaboration and strengthen the region's automotive sector.

North East Institute of Technology

Stand C26

Sharon Grant

t: 07970 197447 / 0191 375 4050
e: sharon.grant@newdur.ac.uk
w: www.neiot.ac.uk

We are a partnership of further education colleges, universities and businesses supporting higher technical skills development in the North East. We provide employers with the skilled workforce they need and provide students with an excellent technical education.

North East Advanced Material Electronics

Stand C6-7

Rebecca Hall

t: 07584 217016
e: rebecca.hall@durham.gov.uk
w: www.linkedin.com/company/neame-north-east-advanced-material-electronics

The North East Advanced Material Electronics Cluster brings together the businesses, universities, innovation organisations and partners driving this capability forward – connecting expertise across semiconductors, photonics, RF and microwave technologies, sensing and advanced materials.

North East Local Skills Improvement Plan (NELSIP)

Stand C4

Mark David

t: 07955 316418
e: mdavid@northeastautomotivealliance.com
w: nelsip.com

Working with businesses, education and training providers, key stakeholders and cross-sector Employer Representative Bodies, the NELSIP 2026-2029 will ensure that local skills provision reflects the needs of employers and emerging opportunities across strategically important sectors including advanced manufacturing, construction, creative industries and content, digital, defence, security and space, offshore wind and energy transition, social care and tech digital and AI.

North East Mayoral Strategic Authority – Made Smarter

Stand A27

Paul Hughes

t: 0191 561 5468

e: paul.hughes@northeast-ca.gov.uk

w: www.madesmarter.uk

Made Smarter helps manufacturing SMEs increase profits, improve efficiency and grow by investing in digital technology, people and processes. The manufacturers of tomorrow use technology to streamline their processes – they are faster, more responsive, and more efficient. Made Smarter helps manufacturing businesses secure a competitive edge.

Northern Metal Recycling

Stand A9

Adam Hopps

t: 07352 821613

e: adam.hopps@northernmetalrecycling.co.uk

w: www.northernmetalrecycling.co.uk

Northern Metal Recycling currently hold the UK single-source factory recycling contract for Nissan and also support leading automotive manufacturers including Unipres and Snop. These partnerships reflect our ability to deliver reliable service levels, operational efficiency, and high environmental standards within demanding automotive manufacturing environments.

North East Regional Defence & Security Cluster

Stand C11

Lesley Hawke

t: 07368 462229

e: lesley.hawke@rtcnorth.co.uk

w: www.nerdsc.co.uk

The North East Regional Defence and Security Cluster (NERDSC) is a dynamic partnership that connects industry, academia, government and defence stakeholders to strengthen the North East's contribution to UK defence, security and national resilience. By fostering collaboration, innovation, skills development and supply chain growth, NERDSC helps regional organisations access opportunities, develop sovereign capability and support economic prosperity.

Olympus Global

Stand A10

Dan Sullivan

t: 07513 119683

e: dsullivan@olympusglobal.co.uk

w: www.olympusglobal.co.uk

Olympus Global is a specialist distributor of high-end production components for the automotive and industrial sectors. With 50 years' experience, we supply engineering fasteners and allied 'C' class components worldwide, supporting OEMs and Tier 1 customers with technical consultancy, manufacturing, supply management and global logistics.

Exhibitors A-Z | P-P profiles

PIAB Group

Stand A1

Mark Szubanski

t: 07753 930902

e: mark.szubanski@piabgroup.com

w: www.piab.com

Piab is a global leader in vacuum automation, providing innovative gripping, lifting, and moving solutions that help manufacturers improve productivity, safety, and sustainability. With expertise across industries including packaging, food, automotive, logistics, and pharmaceuticals, Piab enables smarter automation through reliable, energy-efficient technologies.

Polymer Compounders

Stand A20

Richard Clay

t: 07932 520315

e: r.clay@polymer-compounders.co.uk

w: www.polymer-compounders.com

Since 1993, Polymer Compounders have progressively increased the product range it offers to now include ABS, Polycarbonate, PC/ABS, ASA and other injection moulding engineering thermoplastics. Rapid colour matching, tailored materials, outstanding technical support, first-class product quality, flexible order quantities and super-fast delivery all from our production plant in Durham, UK.

Plastic Mouldings Northern Ltd

Stand A17

Geoff Hodgson

t: 01388 777 700

e: Geoff@pmn-ltd.co.uk

w: www.pmn-ltd.co.uk

We are one of the UKs leading suppliers of competitively priced rigid plastic packaging solutions. We specialise in plastic vacuum forming products, supplying high quality and often intricate moulded parts to an array of industries.
